You are the captain of the USS Galaxy, a spaceship headed towards a distant planet. Suddenly, the ship's engines malfunction, and you are forced to make a decision. Option 1: Attempt to repair the engines with the ship's onboard tools. Option 2: Call for help from nearby spaceships. Option 3: Land the ship on a nearby planet and seek help from the locals. Option 4: Abandon the ship and evacuate to the nearby escape pods. What do you choose?
